

Customized CRO Anchor Vial Products to Fit Your Scheduled Patient Sample Testing Programs

3 Year Anchor Vials for Contract Research Organizations (CROs)

We customize survey samples with the analyte ranges which fit the important measurement levels your client wants to gather data for.

We let you sample the Anchor materials in advance.

We build a "reserved" lot for your Global Laboratory Assay Standardization Survey program (GLASS).

We store up to 3 years worth for you.

We drop ship pre-tested combo (multi level) kits to your internal or contracted global testing sites.

We can collect the weekly results for you to validate all your testing sites are providing consistent testing results.

You get to reassure your clients that their data has not been affected by unknown regional anomalies or testing abnormalities.

Anchor Vials for:

- General Chemistry
- HbA1C
- Immunoassay
- Coagulation
- Special Chemistry
- Glucose
- Urinalysis
- Hematology
